6141 INCOME/REVENUE

The expenditures of this district should be planned in conjunction with the Treasurer in order to coordinate the cash requirements of the municipality and the school system to avoid the need for borrowing and to maximize the interest on principal investments.

It is the policy of the Board that the Secretary/Business Administrator develop a local tax payment schedule in cooperation with the municipality.

In order to insure maximum use of revenue aid, the Board directs the Board Secretary/Business Administrator to present annually a detailed estimate of the financial aid that can be expected from state and federal sources for the next fiscal year in comparison to the current and immediately completed fiscal year.
