Cooperation with Educational Agencies

9500 COOPERATION WITH EDUCATIONAL AGENCIES

Student Health and Career Development

The Board believes that cooperation between the schools and other organizations concerned with youth, career development and mental health will enhance the opportunities of the district's students. Such cooperation will also enable the district to serve its students better through appropriate referrals as in substance abuse programs, special needs, etc. The Superintendent is encouraged to explore areas of mutual concern with the administrative officers of such organizations and to recommend desirable courses of action.

The Board directs the Superintendent to seek and maintain working relationships with local colleges and universities in such areas as student teaching, in-service staff development and advanced placement.

It is of particular importance to establish and maintain close working relationships with trades, businesses and industries, which provide members for advisory committees and are possible sources of career placements for our students.

The Haddonfield Public Schools shall cooperate with other schools and districts in the solution of common educational concerns. District staff, under the direction of the Superintendent, shall participate in the coordination of such areas as research, exchange of information and data, coordination of curriculum, coordination of school calendar, and activities and any others where it may be advantageous to serve a broader area than this school district. The Board will cooperate with parochial and private schools in matters of mutual benefit where not expressly prohibited by law. In carrying out this policy the Superintendent shall include in reports to the Board an evaluation of the desirability and feasibility of cooperation with other schools and districts.
