B. Corrective Measures

1. Where the number of students assigned to a nonexempt class is below the minimum number, the following actions may be taken:
 - a. Where feasible, consideration may be given to consolidating classes. A proposal to consolidate classes may precipitate the abolishment of positions and a consequent reduction in force and must be forwarded to the Superintendent,
 - b. In the secondary school, a class in which fewer than fifteen students are enrolled by June 1 may be canceled, unless elimination of the class will impair the school curriculum or deprive students of an essential unit in a sequential instructional program necessary for graduation, college application, employment, or other postgraduate use.
2. Where the number of students assigned to a nonexempt class exceeds the maximum number, the following actions may be taken:
 - a. Consideration may be given to assigning an instructional aide to assist the teacher,
 - b. Classes may be organized into team teaching components,
 - c. The Principal may consider reorganizing the overcrowded grade level or subject area into a greater number of classes. A proposal to increase the number of classes taught by teaching staff members may require the creation of new positions and must be forwarded to the Superintendent.
